Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### **Reason for allowance**

**Claims 1- 12 would be allowed.** The following is an examiner's statement of reason for allowance:

None of the references of record teaches or suggests the claimed Semiconductor device having the steps of forming a gate wiring and second capacitance electrode over the insulating film containing silicon and the first insulating film and exposing a portion of the second capacitance electrode by removing a part of the first interlayer insulating film and among other steps as cited in independent claim 1.

**Claims 13-42 would be allowed.** The following is an examiner's statement of reason for allowance:

None of the references of record teaches or suggests the claimed Semiconductor device having the steps of forming an opening in the first interlayer insulating film so that at least a portion of the first capacitor electrode is exposed in the opening; forming a second dielectric of a second capacitor on the first capacitor on the first capacitor electrode and forming a second capacitor electrode over the first capacitor electrode with the second dielectric interposed therebetween and among other steps as cited in independent claims 13, 23 and 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
